RSTA/TD-01/2020-21/479

20th July 2020

Public Notification for mRSTA

The RSTA hereby notifies the launch of mRSTA mobile app. The app has been developed to enable production of requisite documents such as driving license (DL), vehicle registration certificate (RC), road worthiness certificate (RWC) and other relevant documents in electronic form for convenience.

Therefore, all relevant agencies are requested to accept and acknowledge any information related to driving license and vehicle registration available in the app. Further, users shall take note of the following;

1. The app shall serve as a supplementary to physical (hardcopy) DL, RC and RWC, and the user will have the option to produce hard-copy documents or through mRSTA app, where necessary.
2. If a person does not have an online digital copy with mRSTA app, the relevant paper documents will be required as usual.
3. The app is available for both Android and IOS devices.
4. Users can use the digital documents ONLY through the mRSTA app, and screenshot, photocopy, photograph or other forms will not be accepted.
5. If details on the mRSTA app contain the validity date which is in-force, then no physical RC, DL or RWC is required.

However, this notification shall not be construed as cessation of issuance of physical document, and, therefore, financial institutes and insurance companies, where physical document in original is required, may continue the requirement or contact the Authority for document verification.

(Ugyen Norbu)

Offtg. Director General
