

## Addendum

The Department of IT and Telecom would like to issue the following addendum for Internet Demand Aggregation for Government Initiated Network (Tender ID:9393) :

1. Clause D.2 under ToR - IIL for DrukREN is hereby amended as follows:

*“The bidder shall have International Internet Transit from Phuentsholing and Gelephu. The bidder should have fiber optic connectivity to their upstream provider. The bidder shall have an International Internet Transit subscription more than twice the total awarded bandwidth.”*

2. Bidders who do not have International Internet Gateways at border towns of Phuentsholing and Gelephu, shall be granted 6 months time to establish gateways after the award of the work. However, bidders shall be responsible for providing the required Internet service to customers from their existing gateway until their 2nd International gateway is established.
3. The bidders shall be provided 2 months for project implementation and transition instead of 30 days.
4. The billing during 2 months implementation and transition time shall be prorated.
